FUND MANAGER'S COMMENTS

The Fund (Class MYR) gained 1.56% during the month of Aug 2018, outperformed the benchmark which gained 1.31% by 0.25%. Year-to-date, the Fund is up 5.46%, outperformed benchmark by 1.21%.

Global equities recovered further though several markets (China onshore, Italy, Russia, Germany) recorded noticeable drawdowns. US equities continued their amazing run of outperformance, aided by strong macro and very strong bottom-up feeds. Worries about ex-US markets (ongoing trade disputes which impacted Chinese and European sentiments adversely and currency crashes in Turkey, Argentina, Brazil drew money into US markets, both in equities and fixed income. Bank of England (BOE) raised its policy rate 25 basis points to 0.75% in a unanimous decision as it shifted focus to taming inflation (given a tight labor market caused by reduced immigration and limited spare capacity) rather than supporting job growth.

The Fund is overweight in the US and Japan while underweight Europe.
