FUND MANAGER’S COMMENTS

The Fund delivered 0.13% in the month of February 2022, the benchmark is in line, and delivered 1.61% in the 12-months period ending 28 February 2022, underperforming the benchmark by 13bps.

In the March MPC meeting, BNM maintained the OPR at 1.75% and continues to view the current stance as appropriate and accommodative. BNM maintained their view that both the global and domestic economy would continue to recover and strengthen in 2022, but highlighted new risk from the ongoing Russia-Ukraine conflict that could tilt the outlook to the downside. Both headline and core inflation are expected to remain moderate as the base effect from fuel inflation dissipates. Upside risk to inflation will be capped by the continued slack in the economy and labour market.

Following the gradual economic reopening in 4Q2021, Malaysia’s GDP rebounded +3.6% YoY during the period (est +3.3%; 3Q: -4.5%) and +6.6% SA QoQ (est +6.3%; 3Q: -3.6%), bringing FY2021 GDP growth to +3.1% (2020: -5.6%). During the quarter, the growth was not broad-based amid rebounds in services (+3.2% YoY), manufacturing (+9.1% YoY) and agriculture (+2.8% YoY), but further contractions in mining (-0.9% YoY) and construction (-12.2% YoY). Domestic demand also rebounded, driven by both private (+3.7% YoY) and public (+4.3% YoY) consumption; however, gross fixed capital formation continued to decline due to continued contractions in both private (-3.0% YoY) and public (-3.8% YoY) investment.

In January, headline CPI moderated to 2.3% YoY (est. 2.5%; prior. +3.2%) despite higher F&B prices (+3.6% YoY, Dec: +3.2%), as transport cost eased (+6% YoY, Dec: +9.5%) from diminishing base effects and fuel price subsidy. Core CPI accelerated to +1.6% YoY (Dec: +1.1%) amid pent-up discretionary spending and services demand effect from economic reopening (e.g. restaurants, hotels, recreation, furniture, etc.).

We limit our investment exposure to short-term deposit placements due to the very low risk nature of the Fund.

RISKS

Returns not guaranteed	The investment of the fund is subject to market fluctuations and its inherent risk. There is NO GUARANTEE on the investment returns, nor any assurance that the target fund's investment objective will be achieved.
General market environment risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the target fund's NAV.
Inflation risk	This is the risk that your investment in the target fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
Financing risk	This risk occurs when you obtain financing to finance your investment. The inherent risk of investing with money obtained from financing includes you being unable to service the financing payments.
Manager's risk	This risk refers to the day-to-day management of the target fund by Principal which will impact the performance of the target fund, e.g. investment decisions undertaken by Principal as a result of an incorrect view of the market may adversely affect the performance of the target fund.
Reclassification of Shariah non-compliant status risk	This risk refers to the risk that the currently held Shariah-compliant securities in the target fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council of the Securities Commission Malaysia (SACSC), the Shariah adviser, the Shariah boards of the relevant Islamic indices or the Shariah adviser of the issuer.
Credit and default risk	<p>Investment of the target fund may involve a certain degree of credit and default risk. Generally, credit and default risk is the risk of loss due to the counterparty's and/or issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. Principal aim to mitigate this risk by performing fundamental credit research and analysis to determine the creditworthiness of its counterparty and/or issuer.</p> <p>Investment in the target fund is not the same as placing funds in a Shariah-compliant deposit with a licensed Islamic financial institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in the target fund.</p>
