## FUND MANAGER'S COMMENTS

- Global equities ended flat in May in US dollar terms. Sentiment was buoyed by upbeat US economic data and the dollar appreciated amid the prospect of a summer interest rate hike.
- Oil pushed above US\$50 a barrel for the first time this year following supply disruptions.
- Markets were also bolstered by a tentative Greek debt deal with its creditors in exchange for tax increases and reforms.
- In May, we introduced Viscofan, a Spanish manufacturer of sausage casings. Against this, we sold Emerson Electric, to fund better opportunities elsewhere. We added to Henkel, KWS Saat and MTR, and trimmed Canadian National Railway, EOG Resources and Schlumberger.
