FUND MANAGER’S COMMENTS

The Fund delivered 0.27% in the month of August 2023 which was outperforming the benchmark by 2bps and delivered 3.14% in the 12-months period ending 30 August 2023, outperforming the benchmark by 33bps.

Headline inflation declined further to +2.0% YoY in July (cons: +2.1%; June: +2.4%), as transport inflation contracted -0.4% YoY due to base effects. Food & non-alcoholic beverages price increase slowed to +4.4% (Jun: +4.7%), while non-food inflation decelerated further to +0.8% YoY (Jun: +1.2%). Core inflation also eased to +2.8% YoY (Jun: +3.1%). However, inflation remains biased to the upside given the potential revision in price subsidies and controls, and the rising rice prices following the global shortage - which forced BERNAS to raise its price for imported white rice from RM2,350/tonne to RM3,200/tonne. Both exports and imports saw further declines in July, contracting by -13.1% YoY (Jun: -14.1%) and -15.9% YoY (Jun: -18.7%), respectively - resulting in lower trade surplus of RM17.1 billion (Jun: RM25.5 billion). Exports saw continued declines within the manufacturing, agriculture and mining products. The Industrial Production Index fell 2.2% YoY in June, attributed to the contraction in the manufacturing and mining sectors. Manufacturing output also continues to be lackluster with the Manufacturing PMI remaining in contraction at 47.8 in August (July: 47.8). Malaysia’s 2Q23 real GDP growth slowed to +2.9% YoY (cons: +3.3%; 1Q23: +5.6%) as growth in services and construction decelerated to +4.7% (1Q: +7.3%) and +6.2% (1Q: +7.4%), while manufacturing remained flat at +0.1% (1Q: +3.2%) and both agriculture and mining contracted at -1.1% (1Q: +1.0%) and -2.3% (1Q: +2.4%), respectively. The growth in domestic demand remained firm at +4.5% (1Q: +4.6%), as the rebound in public expenditure offset slower private expenditure. Net external demand declined by -3.7% (1Q: +54.5%) on further and larger declines in both exports and imports.

We limit our investment exposure to short-term deposit placements due to the very low risk nature of the Fund.
